

Listing of Claims:

This listing of claims reflects all claim amendments and replaces all prior versions, and listings, of claims in the application. Material to be inserted is in **bold and underline**, and material to be deleted is in ~~strikeout~~ or (if the deletion is of five or fewer consecutive characters or would be difficult to see) in double brackets []].

1. (currently amended) Shape structure usable to form a desired wall surface, comprising:

a first region constructed for being attached to a preliminary wall; ~~and~~

a second region constructed for being located in an opening formed in the preliminary wall; **and**

wherein the second region is constructed to form a desired wall surface.

2. (original) The shape structure of claim 1, wherein the first region is constructed as a flange.

3. (original) The shape structure of claim 1, wherein the second region is constructed as a body.

4. (original) The shape structure of claim 2, wherein the second region is constructed as a body.

5. (original) The shape structure of claim 3, wherein the body is constructed to form a recess when placed in the opening of the wall.

6. (original) The shape structure of claim 4, wherein the body is constructed to form a recess when placed in the opening of the wall.

7. (withdrawn) The shape structure of claim 3, wherein the body is constructed to form a protrusion when placed in the opening of the wall.

8. (withdrawn) The shape structure of claim 4, wherein the body is constructed to form a protrusion when placed in the opening of the wall.

9. (original) The shape structure of claim 1, wherein the first region is constructed for being attached to a shower wall, and the second region is constructed for being located in an opening formed in the shower wall.

10. (original) The shape structure of claim 1, further including a third region for fastening to the wall.

11. (currently amended) A mold usable to form a desired shower wall surface, comprising:

a first region constructed for being attached to a preliminary wall associated with the shower wall; and

a second region constructed for being located in an opening formed in the preliminary wall and the shower wall; and

wherein the second region is constructed to form a desired shower wall surface.

12. (original) The mold of claim 11, wherein the first region is a flange and the second region is a body.

13. (original) The mold of claim 11, further including a fastening region for fastening to the shower wall.
